

# Forklift Training Materials

## Coaching The Lift Truck Operator™

**Meet the latest OSHA regulations for operator training for General Industry.**

Learn how to meet OSHA's Powered Industrial Truck Standard (1910.178) using the National Safety Council's Coaching the Lift Truck Operator™ training program.

This program provides everything you need to conduct a one-day training course on safe lift truck operation and maintenance, regardless of experience level. Participants will learn:

- ◆ Operator training definitions from OSHA and NIOSH
- ◆ Lift truck design
- ◆ Vehicle safety inspections
- ◆ Moving with and without a load
- ◆ Picking up and stacking a load
- ◆ Utilizing scanning techniques
- ◆ Special considerations such as trailers, ramps and elevators
- ◆ Pedestrian safety (for employees who work around lift trucks)

### **ENGLISH INSTRUCTOR KIT**

Kit includes: Two Video Presentations, Fully-scripted Leader's Guide, Overhead Transparencies, guidelines, tests, registration forms, inspection and performance checklists, OSHA background information and exercises for conducting "hands-on" training. Training is reinforced with two video presentations. The comprehensive Operator Video addresses inspection, design and operating with and without a load. A shorter Pedestrian Video offers safety tips for people who work around lift trucks.
