Advanced MESH

Congratulations on having earned your MESH

Certificate. Your achievement shows that you take occupational safety and health seriously. As a MESH graduate in General Industry, Industrial Hygiene, Public Sector, Construction, Emergency Preparedness, or Environmental you can now reach an even higher level of safety professionalism. The Advanced MESH will be awarded to those who complete two weeks of comprehensive training addressing workplace safety, health, and environmental issues at a higher level. Subject matter experts will help you reach a deeper understanding on how to build and sustain a world class safety culture. When you complete both Safety and Health Week and Environmental Week, you will be presented your handsomely personalized desk clock to showcase your achievement.

MESH

Manager of Environmental
Safety and Health Programs

The advanced MESH Certificate provides advanced topics for the environmental and safety professional. These two, 4-day courses are designed to provide hands-on approaches and applications to prevent and control hazards and environmental impacts in the workplace.

Knowledgeable instructors from the Safety and Health Council of North Carolina, North Carolina Department of Labor, and North Carolina State Industry Expansion Solutions will be teaching these sessions. There will also be invited speakers from other organizations teaching certain topics in these two sessions.
